For heating, apparatus, book cases for archives, office furniture, upholstery, blinds, gaspipes and fixtures in fire-proof building for public office and archives, five thousand dollars.

Approved, February 18, 1871.

SPECIAL NOTICE.

Dr. SCHENCK advises Consumptives to go to Florida in Winter.

Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption. I feel that I understand fully the course that eught to be pursued to restore a tolerably had case of diseased lungs to healthy soundness. The first and most important step is for the patient to avoid taking cold, and the best of all places en this continent for this purpose, in winter, is Florida, well down in the State, where the temperature is regular, and not subject to such variations as in more Northern latitudes. Palatka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I saw several persons there whose lungs had been hadly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

One hundred miles further down the river is a point which I would prefer to Falatka, as the temperature is more even and the air dry and bracing. Mellouville and Enterprise are located there. I should give a decided preference to Mellouville. It is two miles from river or lake, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times, but that is a good sign, as it indicates a return of appetite, and when this is the case they generally increase fu fieth, and then the lungs must heal.

Jacksonville, Itherana, Green Cove, and many other places in various parte of Florida, can be safely recommended to consumptives in winter. My reasons for saying se are that patients are less liable to take cold there than where there is a less even temperature, and it is not necessary to say that where a consumptive parson exposes himself to frequent colds he is certain to die abortly. Therefore my advice is, so well down into the State—out of the reach of prevailing east winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit these whose lungs are troubled with a torpid liver, a disordered sto

regard to sahing coid. A person may take vast quantities of Schemak's Palmonic Syrup, Seawed Tonic, and fandrake Pill., and yet die if he does not avoid taking coid.

In Fortda, nearly everybody is using Schunck's Mandrake Illis, for the climate is more likely to produce bill-school the control of the con
